Kathmandu, Nepal

📁 PROJECTS

Online Restaurant

The project online restaurant, is a platform that represents the online processing of the restaurants. This platform is suitable for both table service or delivery. The technology used in this are react, css, nodejs, expressjs, mongodb.

Ecommerce Website [🔗](#)

- This project is a simple ecommerce website with product page, homepage, fetching of API data, etc

Calculator [🔗](#)

Stopwatch [🔗](#)

Responsive Web Layouts [🔗](#)

This is the fully responsive web design of microsoft official website using tailwind

PROFESSIONAL EXPERIENCE (6 MONTHS)

2023 Sep – 2023 Nov
kathmandu, Nepal

Junior Developer at GoldenDuck Enterprises

- There I worked for three months with a developer team. My main job is to look after the inbuilt projects of the company and perform the necessary changes in the UI or the backend side. During this, I mostly worked with JS, nodejs, react, and CSS.

2023 Dec – 2024 Feb
Advanced College of
Engineering and
Management, , Kalanki

Student Fellowship Intern

- I have worked for 10 weeks intern program with the US-based company Pahadi Research LLC at the Advanced College of Engineering and Management. During this period, I learned the zero coding concept, where coding is done through JSON.
- We also have hands-on design and database and make dynamic web layouts.
