EXPERIENCE

08/2024 - Present

Thapathali

Full Stack Software Developer

Smart Innovation

🌐 <https://smartinnovation.com.np/>

- As a Junior Developer at Smart Innovation, I had the opportunity to contribute to real-world industry projects across the full development lifecycle.
- Requirement analysis, planning, designing, and developing both frontend and backend services.
- Developing RESTful APIs and integrating them with backend systems.
- Working extensively with MongoDB, and postgresql for database operations.
- Collaborating on projects using modern technologies such as:
 - React, JavaScript, TypeScript
 - Node.js, Express.js
 - Tailwind CSS, Next.js, Postman, GitHub Actions
- Regularly deploying and updating projects using Netlify, Render and Docker.
- Gaining hands-on experience and foundational knowledge in AWS during this period.

01/2025 - 03/2025

Kumarpati, lalitpur

React Developer

Digisoft Developers

- As a Junior React Developer at Digisoft Developers, I had the opportunity to work on both industry and government projects, contributing across various stages of the development lifecycle
- Performing requirement analysis, planning, UI/UX designing, and frontend development.
- Testing and integrating APIs, and ensuring seamless connectivity with backend systems.
- Updating and maintaining existing systems and software solutions.
- Utilizing tools and technologies such as:
 - React, JavaScript, TypeScript
 - Tailwind CSS, Next.js, Postman, Swagger
- Deploying and providing daily updates via Netlify
- This role strengthened my expertise in frontend development, enhanced my API integration and testing skills, and gave me practical experience in delivering scalable solutions in both private and public sectors

09/2023 - 11/2023

Anamnagar, Kathmandu

Internship

Golden Duck Enterprises Pvt

- As an Intern Frontend Developer at GoldenDuck Enterprises, I worked on improving the usability and design of existing systems
- Updating and enhancing existing system designs to improve usability and visual appeal
- Proposing new UI/UX design ideas aimed at making systems more user-friendly and efficient.
- This internship deepened my understanding of user-centered design and gave me valuable experience full stack development.

SKILLS

MERN Stack

ReactJS

Nodejs

Expressjs

JavaScript

TypeScript

Tailwindcss

Bootstrap

Next.js

MongoDB

PostgresSql

SQL

NoSQL

Git

Docker

Jest

React Testing Library

Netlify

Render

AWS

Github Actions

EDUCATION

2019 - 2024

Bachelor in Computer Engineering.

Advanced College of Engineering & Management

PROJECTS

Website of Bharatpur ward 12

🌐 <https://bharatpur12.org/#/>

This is a website of the Bharatpur ward 12. This project was build using the tools Reactjs, tailwind, framer Motions, i18next, MySQL, Laravel, and Docker.

PROJECTS

Toursewa

<https://toursewa.netlify.app/>

This is a Full Stack service providing application. This project was build using the tools ReactJS, tailwind, framer Motions, MongoDB, nodejs, expressjs and necessary dependencies and libraries, and Docker

Website of Smart Innovation

<https://smartinnovation.com.np/>

This project was build using the tools Reactjs, tailwind, framer Motions, and Docker

Capital Laphing

<https://capitallaphing.netlify.app/>

This project was build using the tools Reactjs, tailwind, framer Motions, and nodejs, mongodb

Website of Metabyte Infosys

This is the full stack application was build using the tools Reactjs, tailwind, framer Motions, nodejs, expressjs, mongodb, and Docker.

Website of Aashirwad Hotel

<https://hotelaashirwad.netlify.app/>

Website of Aashirwad Hotel

Website of Banepa Ward 1

<https://banepa.netlify.app/>

This application was build using the tools Reactjs, tailwind, framer Motions, i18next

CERTIFICATION

MERN Stack Developer

[Dursikshya](#)

Docker For Beginners

[Coursera](#)

AWS-Solution Architect

[Amazon Web Solutions- Adex Internationals](#)
