

Er. Khagendra Singh Jora

Computer Engineer | Full Stack Developer

Kathmandu, Nepal | +977-981-276-6153 | khagijora2074@gmail.com

LinkedIn | GitHub | Portfolio

Summary

Full Stack Software Developer with 2+ years of experience building scalable monolithic and microservice applications. Skilled in end-to-end product development, REST API design, and backend performance optimization. Experienced with Docker-based deployments, CI/CD workflows, and cloud platforms (AWS, DigitalOcean).

Work Experience

Full Stack Software Engineer (Backend Focused)

Present

Bidhee Pvt. Ltd. — Kathmandu, Nepal

- Designed and built applications across monolithic and microservices architectures, including database schema and business logic shared across web and mobile clients.
- Implemented RBAC and JWT-based authentication, an AI RAG-based chat feature, and an integrated payment system.
- Developed microservices using Kafka and Redis for event publishing and caching.
- Performed code maintenance, debugging, and refactoring to improve performance, readability, and long-term scalability; containerized applications using Docker for consistent development and deployment.

Full Stack Software Developer

Aug 2024 – Nov 2025

Smart Innovation

- Developed and maintained full-stack web applications using React, TypeScript, Node.js, and Express.
- Built scalable RESTful APIs and implemented efficient data models using MongoDB and PostgreSQL.
- Designed and implemented end-to-end product features spanning frontend UI, backend logic, and database integration.
- Optimized database queries and backend performance, improving application response times.
- Containerized applications using Docker to standardize development and production environments.

Skills & Interests

Frontend: React.js, Next.js, JavaScript, TypeScript, Bootstrap, Tailwind CSS, React Native, Redux, Chakra UI

Backend: Node.js, Express.js, GraphQL, TypeORM, Kafka, Redis, REST APIs

Database: MongoDB, PostgreSQL, MySQL, SQL, NoSQL

DevOps: Docker, Git, CI/CD, Netlify, Render, AWS, DigitalOcean

Other Tools: Postman, Swagger, Prisma ORM, Neon

Certifications: AWS Certified Solutions Architect, MERN Stack, Docker

Education

Bachelor of Engineering in Computer Engineering

Jan 2019 – Jan 2024

Advanced College of Engineering & Management

Projects

Hello Palika

- Link:** helloworld.cliffbyte.com

Bharatpur Ward 12 — Municipal Website

- Outcome:** Launched a multilingual municipal website improving citizen access to local information and services.
- Built frontend and backend features using React with i18next for localization, and Laravel/MySQL for content management.
- Link:** <https://bharatpur12.org/>
- Tech:** React, i18next, Laravel, MySQL.

Auto-Galaxy — Vehicle Marketplace

- **Outcome:** Developed a comprehensive vehicle marketplace platform for Bidhee Pvt. Ltd.
- Built scalable features for vehicle listings, search, and user management.

Smart Innovation

- Full-stack web applications with React, TypeScript, Node.js, and MongoDB/PostgreSQL.
- **Link:** smartinnovation.com.np
- **Tech:** React, TypeScript, Node.js, MongoDB, PostgreSQL.

Learning Management System

- **Outcome:** Launched a responsive LMS that improved course access and engagement with faster page loads.
- Led end-to-end development: UI/UX design, React frontend, Node/Express APIs, and MongoDB data models.
- **Link:** lmsv1-test.netlify.app
- **Tech:** React, Tailwind CSS, Framer Motion, Node.js/Express, MongoDB, Docker; deployed as containerized services.

Toursewa — Travel Booking Platform

- **Outcome:** Delivered a reliable travel booking platform that streamlined booking flows and improved user satisfaction.
- Built full-stack features and REST APIs, designed booking flows, and managed production rollout.
- **Link:** toursewa.netlify.app
- **Tech:** React, Tailwind CSS, Framer Motion, Node.js/Express, MongoDB, Docker; focused on UX polish and backend reliability.

Capital Laphing

- **Link:** <https://capitallaphing.netlify.app/>

Lalbandi Profiling & Planning

- **Outcome:** Created municipal profiling and planning tools for local government.
- Developed data-driven solutions for municipal planning and citizen profiling.
- **Link:** planning.infocarenepal.com
